Global Advisor

Dr. Abraham VEMA

Our Mission

IMEC's mission is to transform impoverished communities around the world. We provide equipment solutions for health care, agriculture and education projects in developing countries. We work in collaboration with other humanitarian organizations, governments, faith-based groups and individuals. Together, we have transformed communities in over 90 developing countries since 1995.

Dear Friends of Abraham International:

Blessed Easter 2015 season greetings. Thank you for your support of Abraham International. As you may know, IMEC (International Medical Equipment Collaborative) has been honored to call Dr. Abraham VEMA a friend and Global Advisor for almost 18 years. His participation in our work is vital to our success as a nonprofit organization serving the poor in 90 countries.

Over the past 20 years, we have helped transform over 900 impoverished communities by providing tools for hospitals, clinics, schools, and family farms. Dr. VEMA's expertise and guidance is so important to our work. His introductions to world leaders, community leaders, and other exceptional people have led us to opportunities to serve the poor in many countries, from the Caribbean to the South Pacific. Through this work, his ministry transforms impoverished communities: bringing both the tools for sustainable progress, as well as joy and hope to so many people.

In 2015, our work is more important than ever. Our Transforming Communities Initiative (TCI), which will transform 1,000 communities in the next 10 years, is actively underway.

Dr. VEMA has been a key person in the success of the initiative thus far, and our continued progress depends on his ministry. From generating interest and support from a vast network of people, to guiding us through the intricacies of working with high level officials, we are blessed by Dr. VEMA's friendship, prayer and guidance as we continue our work.

Whether through prayer, friendship, donation of time or financial resources, your support not only enables Dr. Abraham VEMA to continue his important work, but it also helps the Transforming Communities Initiative move forward, which results in us serving millions of people around the world.

I personally have the privilege of spending time with Dr. VEMA and his dedicated Board of Directors. I am continually impressed by their mission and commitment, and am proud to be a supporter of his work myself.

Thank you again for your support of Dr. VEMA and Abraham International. We are honored to serve alongside his ministry, and are grateful for your support.

Please feel free to call or text me on my mobile phone at 646-387-4598 or e-mail me at mkeefe@imecamerica.org.

Respectfully,

Melissa Keefe
Executive Director
